## Section A: Business Environment

### 1. 2006 Employment and Unemployment Numbers and Rates:

	Alberta	Information, Culture and Recreation Industry
Number of employed	1,870,700	68,300
Percent employed in the industry		3.7%
Number of unemployed	66,800	3,500
Unemployment rate	3.4%	4.9%

For more information on employment numbers or for a historical comparison, go to the [Labour Force Survey](#) or [Statistics Canada](#) websites.

### 2. Industry Growth:

- The Information, Culture and Recreation industry is expected to grow on average 1.6% annually from 2006 to 2011.
- Approximately 5,788 jobs will be created in the forecast period. Employment is expected to increase to 74,113 by 2011.
- This industry is expected to provide 2.5% of all new jobs in Alberta between 2006 and 2011.

For more information, see the [Alberta Modified Canadian Occupational Projection System Outlook \(2006-2011\)](#) online and the [Alberta Learning Information Service \(ALIS\)](#) website's industry descriptions.

## Outlook

The *Alberta Occupational Demand and Supply Outlook (2006-2016)*, forecasts a supply surplus for the Librarians, archivists, conservators and curators occupation between 2006 and 2016. Supply shortages are expected for the Creative and performing artists occupation between 2008 and 2016. On average, supply shortages are forecast for Photographers and graphic arts technicians between 2006 and 2016. Athletes, coaches, referees and related occupations are expected to experience a supply shortage beginning in 2007.

Golden Globe and Oscar winning film *Brokeback Mountain* has attracted attention to Alberta's film industry, with such major films as *The Assassination of Jesse James* and *Christmas in Wonderland* being produced in the province. Alberta should remain a solid destination for movie and TV producers due to its natural beauty and the low cost of doing business. However, a rising Canadian dollar may dampen growth projections. With plans to increase provincial grants to \$18 million over the next three years and a provincial plan to double production to \$400 million by the end of 2008, the film industry is expected to grow.

Alberta's strong economy will continue to draw domestic and international visitors to the province. Increase in travel and spending within the province by Albertans and other Canadians is expected to continue. Travel from American visitors will most likely decline in Alberta and right across the country because of the high value of the Canadian dollar relative to the U.S. dollar. The new passport requirements being initiated will most likely have a negative impact on the number of Americans visiting provinces across the country.

As Alberta remains one of the fastest growing provinces in Canada, there will be an increasing concern for personal health and well-being resulting in high demand for recreational facilities and programs, impacting the need for recreation services and the human resources required to provide those services.

### 3. Company Size

Establishment Size	Alberta Businesses		Information, Culture and Recreation	
	Number of Employees	%	Number of Employees	%
Less than 20 employees	525,000	34.1%	16,800	28.1%
20 to 99 employees	543,600	35.3%	21,500	36.0%
100 to 500 employees	292,400	19.0%	12,200	20.4%
Over 500 employees	178,900	11.6%	9,400	15.7%
